Carl Nohr will be the presenter of the workshop. Carl is a Professional Registered Parliamentarian and board member of the National Association of Parliamentarians. In addition to governance, meeting management and decision making, Carl has a passion for professionalism, stewardship and service. He enjoys sharing what he has learned and experienced, and finds that he in turn can learn much from everyone.

Where are the Directors? Despite legislation introduced over 20 years ago to improve corporate and association governance, we continue to see business and association governance failures. In this workshop, we will go over the fundamentals of governance as they relate the fiduciary duties of boards of directors. The Body of Knowledge of the National Association of Parliamentarians (NAP) tells us that a consultant must be able to advise clients regarding the rights and responsibilities of individual officers and of a board. After the session, you will be able to teach the duties of directorship to others, and serve more effectively as a director when you have the opportunity to do so.

This presentation will benefit current and potential board members as well as general members of an organization with a board looking for accountability.

The Manitoba Association of Parliamentarians (MAP) is an organization that encourages the study and practice of parliamentary procedure to improve and promote effective meetings.
